Disclaimer

* The list of medical providers we have is not meant to be exhaustive or definitive nor does it represent either a guarantee of competence or endorsement by the Department of State or the American Embassy. It does indicate that the American community has utilized these professionals in the past. Retention on this list depends upon a combination of factors including availability, training and positive assistance in previous consultations. Patient input, both positive and negative, regarding personal experiences with local health care providers is always welcome and provides additional information to assist us in expanding or contracting this list.
